

Applications for Collectify

Cataloging:

- Describe your objects – including their location, condition, and much more -- quickly and easily using the highly flexible New Object Wizard
- Create museum-quality entries by following internationally recognized cataloging standards
- Add personal information about an object's history, whether it's a gift from a relative, was discovered at a garage sale, or purchased at a gallery, a store, or at auction
- Establish a record of your collection to provide security in the event of loss or damage
- Attach images of your object to your listing

Build a Reference Library Around Your Objects With Attachments:

- Attach appraisals or insurance policy information to your listings
- Download and save articles or newspaper clippings relating to what you own
- Note museum collections that have similar objects
- Catalogue similar items to learn about what you own by comparison

Tracking:

- Record loans to friends, families, or museums
- Note consignments to galleries or auction houses
- Keep track of things you put away safely in the attic – so you can find them again later

Reminders:

- Set the date to update an appraisal
- Note when the rug is due to be sent out for cleaning

Accounting

- Record purchase price
- Track costs (insurance, conservation, shipping)
- Note sales price for tax purposes

Personalizing:

- Add new categories of collecting easily
- Hide unused fields

Sharing:

- Create a slideshow to e-mail your friends
- Build – and send to friends – a screen saverTM using your objects
